

Installation Enclosures

Meter Boxes

SMB's

To house a single phase kilowatt hour meter

- › Standard kWh meter mounting
- › Surface or semi-flush installation
- › Square or triangular securing screw
- › Stand off for circuit breaker
- › Optional circuit breaker reset rod
- › Pole mount brackets available
- › Material - Polyester (DMC)

DMB's

To house up to 3 single phase kilowatt hour meter

- › Meter mounting on base plate
- › Surface or semi-flush installation
- › Available with meter reading window or blank
- › Square or triangular securing screw
- › Facility for circuit breaker mounting
- › Optional circuit breaker reset rod
- › Pole mount brackets available
- › Material - Polyester (DMC)

Installation Enclosures

Watertight boxes

J1 - J4 Range

Industrial general purpose enclosure

- › Surface or semi-flush installation
- › Screw lid or slide lid options
- › Device plate available in DMC
- › Pole mount brackets available
- › Material - Polyester (DMC)

U2 - U8 Range

Use for general purpose/connection enclosure

- › Surface or semi-flush installation
- › Screw lid or slide lid options
- › Device plate available in DMC or chipboard
- › Pole mount brackets available
- › Material - Polyester (DMC)

Installation Enclosures

Distribution Boards

WDB Range

Weatherproof range

- › Available with plain or window lid
- › Earth and neutral bar - Standard
- › Lockable latches - Standard
- › Stainless steel hinges
- › Material Polyester (DMC)

YB Range

Surface distribution board for DIN Rail or cliptray circuit breakers

- › Din rail optional
- › Earth and neutral bar - Standard
- › Blank lids available
- › Conduit knockouts - Standard
- › Cliptray
- › Material - Polyester (DMC)

F081

Weatherproof slide lid distribution board

- › Supplied in samite or din
- › Surface or semi flush mount
- › Pole mount brackets available
- › Material - Polyester (DMC)

Installation Enclosures

Sahara Range

Flush Mount Distribution Boards

- › Conduit knockouts on sides
- › The snap-closing door can be left-hand or right-hand hinged
- › Easy passage of wires between box bottom and din rails
- › Neutral and earth terminals supplied
- › Available in plain and smokey door

Surface Mount Distribution Boards

- › Conduit knockouts on sides
- › The snap-closing door can be left-hand or right-hand hinged
- › Easy passage of wires between box bottom and din rails
- › Neutral and earth terminals supplied
- › Available in plain and smokey door

Installation Enclosures

Bundle Boxes and Ready Boards

Bundle Boxes

Cost effective pole top distribution boxes

- › Pole brackets fitted
- › Self captivating screws in cover
- › Cover attached to base with cord
- › Easy working conditions when cover is removed
- › Various circuit breaker configurations available
- › Main connection tails optional
- › Material - Polyester (DMC)

Ready Boards

Cost effective electrical installations

- › Completely wired and equipped with any ABB circuit breaker and socket combination
- › Can be supplied with bulkhead fitting or a plug-in luminaire
- › Internal Hinges
- › Optional mounting rails
- › Knockouts for conduit or twin and earth - Standard
- › VO flammability rated

Pool Boxes

- › Completely empty
- › Suitable for DIN or Cliptray MCB's
- › Can accommodate timers and transformers
- › Weatherproof
- › Material - Polyester (DMC)

Installation Enclosures

Household Accessories

Weatherproof Plug Boxes

Outdoor weatherproof socket outlet

- › Surface or semi-flush installation
- › Socket supplied as an option
- › Lid can be closed while plug is in socket
- › Available in single or double socket configuration
- › Material - Polyester (DMC)

Surface Extension Boxes

Surface mount switch/socket boxes

- › Can accommodate all local switch / socket types
- › Knock out facilities - Standard
- › Material - Polyester (DMC)

Isolator Boxes

Isolator housing

- › Isolator mounting screws provided
- › Pad lockable facility optional
- › Weatherproof or non weatherproof type
- › Material - Polyestr (DMC)

Installation Enclosures

Industrial Enclosures / Modular Enclosures

AP Range

Industrial general purpose enclosure

- › Available with plain or with window
- › Masonite device plate supplied (standard)
- › DMC Device plates available
- › Hinges and lockable latch supplied
- › Pole mount brackets available
- › Viro type night latch optional
- › Material - Polyester (DMC)

S Range

Industrial enclosure used for push buttons, pilot lights and general purpose

- › Device plates available in DMC and metal
- › Material - Polyester (DMC)

RL Range

Industrial general purpose enclosure

- › Available in plain or with window
- › Device plates available in DMC
- › Hinges - optional in stainless steel or plastic
- › Stainless steel lockable latch available
- › Pole mount brackets available
- › Material - Polyester (DMC)

Installation Enclosures

Terminal Range / Enlec

Terminal Range

Installation Enclosures
Terminal Range / Enlec
RL Range
OKARI

ENLEC Range

Comprehensive range for individual requirements

- › External lid/base fastening with stainless steel quarter turn screw
- › Metal device plates are optional on this range
- › Neoprene seal and precision fit on all enclosures
- › Enclosures are available in clear and plain lids
- › All securing points are external for added protection
- › Material - Polycarbonate
- › Optional hinges, designed exclusively for this range
- › Spring Action Screw

Installation Enclosures

Modular Enclosures

RL Range

Industrial general purpose enclosure

- › Available in plain or with window
- › Device plates available in DMC
- › Hinges - optional in stainless steel or plastic
- › Stainless steel lockable latch available
- › Pole mount brackets available
- › Material - Polyester (DMC)

OKARI

Modular wall mounted GRP enclosure

- › Water resistant
- › Mechanically strong
- › Self extinguishing
- › Thermally stable
- › Non conductive
- › Colour impregnated
- › Electrically stable
- › Non corrosive
- › Non toxic fumes
- › Available in grey or orange
- › Clear lids also available
- › Metal or GRP device plates available
- › Hinges available in grey or orange
