

Uncompromising energy storage

Our 5000 series

**Renewable energy does
not mean continuous energy...
Therefore you must have dependable,
reliable batteries... Surrrette, the world's best.**

- Modular dual container construction
- Unsurpassed cycling
- Widest range of specifications available
- Industry's largest liquid reserve
- 10 year warranty - 15 year average life span
- Low maintenance

**6-CS-17PS
6-CS-21PS
6-CS-25PS**

Modular 6-volt, dual-container, series based on our legendary CS plate. Three models available (770AH, 963AH, 1156AH - 100hr rate). Ideal for medium / larger systems when maximum life and minimal parallel strings are a requirement. Recommended maximum bank size 2300AH at 48VDC.

**2-YS-31PS
2-KS-33PS**

Modular 2-volt, dual-container, series based on our high capacity KS & YS plates. Our highest capacity models available (2349AH, 3435AH - 100 hr rate). Ideal for larger systems where maximum life and minimal parallel strings are a priority. Recommended maximum bank size 10,305AH at 48VDC.

**4-KS-21PS
4-KS-25PS**

Modular 4-volt, dual-container, series based on our high capacity KS plate. Two models available (1557AH, 1990AH - 100hr rate). Perfect for larger systems where maximum life and minimal parallel strings are a priority. Recommended maximum bank size 5900AH at 48VDC.

**Serving the renewable
energy market since 1984**

12 Volt 6 Cell						
12-CS-11PS	503	357	22 in 55.88 cm	11.25 in 28.58 cm	18.25 in 46.36 cm	272/220 lb 123/100 kg

Dual Container

Our unique battery design features dual container construction. Each cell is self-contained in a high temperature-retardant, durable polypropylene case. The outer container is made of high-density unbreakable polyethylene, giving you double protection against breakage or leakage. Cell replacement is clean and quick; with bolt-on connectors - allowing the battery to be assembled or repaired on location.

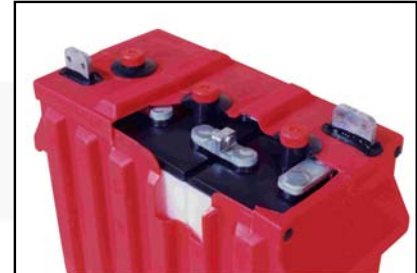

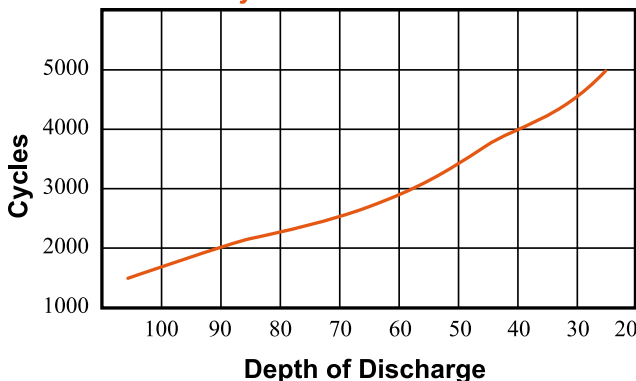

Plate Construction

Our rugged positive plates are the thickest in the industry and pasted at the highest density. Coupling with enveloped separators creates increased liquid reserve – creating a lower maintenance, longer cycling battery.

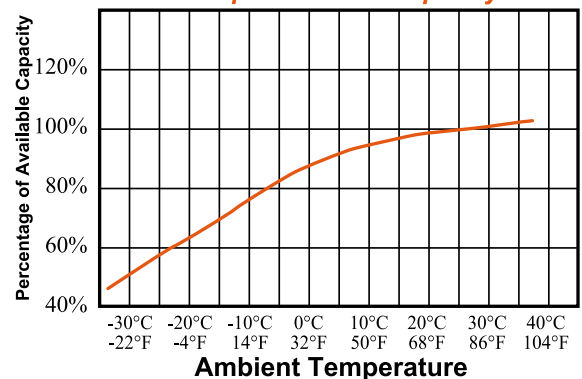

Warranty Information

Failure within 36 months from date placed in service yields FREE replacement, not including freight charges from factory to destination. After the first 36 months of service, defective batteries will be adjusted for a period of up to 120 months from the date first in service at prices in effect at the time of adjustment. Certain restrictions apply.

Cycle Life - Series 5000

Temperature vs. Capacity

authorized dealer

Our Reputation is Well Earned

Surrette batteries have the highest lead content and largest liquid reserve of any deep cycle battery. This makes Surrette the battery with the longest useful life available.
